

### The OOCL "Y2K SEAL" version

Universeal has developed for **OOCL** a dedicated version of the Locktainer 2000 called "Y2K SEAL"

**Y2K SEAL** is a registered trade mark of Universeal Manufacturing Sdn. Bhd.

### Main differences with the original model are:

- Printing directly on seal body.
- Numbers are printed on a lined surface that would make tampering obvious.
- Transparent cover made of extra resistant plastic material.
- Specially redesigned inner steel insert to provide extra tensile resistance.

This version conforms ISO/PAS 17712 and is accepted by Taiwan Customs.
